Sagnik Paramanik

MERN Stack Web Developer

sagnikparamanik169@gmail.com | +91-7363067685 | LinkedIn | GitHub | Portfolio

Professional Summary

I'm a passionate MERN Stack Web Developer with hands-on experience in MongoDB, Express.js, React.js, and Node.js. I enjoy building modern, responsive, and user-friendly web applications using JavaScript, HTML, CSS, and Tailwind CSS. I have experience developing frontend interfaces, connecting applications with backend services, managing databases, and using Git and GitHub for version control. I'm continuously improving my development and problem-solving skills through real-world projects and enjoy learning new technologies to build efficient and scalable web solutions.

Programming Skills

Programming Languages: Java, JavaScript
Frontend: HTML5, CSS3, React.js, Tailwind CSS
Backend: Node.js, Express.js
Database: MongoDB
Tools: GitHub, Vercel

Technical Skills

Object Oriented Programming
java

Work on framework
Express.js

Education

B.P. Poddar Institute of Management and Technology, Kolkata, India **Sept 2022 – June 2026**
B.Tech in Electronics & Communication Engineering

Bankura Goenka Vidyayatan, Bankura, India **April 2021 – May 2022**
Senior Secondary (Class XII)

Bankura Zilla School, Bankura, India **March 2020**
Secondary (Class X)

Projects

Job Portal Web Application **2026**
React.js, Vite, MongoDB, JavaScript (ES6+)

- **Developed a job portal using React.js where recruiters can post jobs and candidates can search and apply for jobs.**
- **Implemented separate functionality for recruiters and candidates to manage job postings and applications.**
- **Added job search and filtering features and created responsive dashboards for both recruiters and candidates.**
- **Used Git and GitHub for version control and deployed the application on Vercel.**
- **Live Demo | GitHub Repository**

AI InterviewIQ – AI-Powered Mock Interview Platform **2026**
React.js, Node.js, Express.js, MongoDB,Google Authentication

- **Built a full-stack AI-powered mock interview platform that generates interview questions and provides structured performance reports.**
- **Developed responsive React interfaces for interview setup, timed interview sessions, and result visualization with score-based analytics.**
- **Implemented secure authentication and REST APIs using Node.js, Express.js, JWT, and MongoDB for user and interview data management.**
- **Live Demo | GitHub Repository**

Personal Portfolio Website **2025**
React.js, Vite, Tailwind CSS, JavaScript (ES6+), Framer Motion

- **Designed and developed a fully responsive personal portfolio to showcase projects, technical skills, and experience with a reusable, component-driven architecture.**
- **Implemented dark/light mode theming and performance optimizations, then configured an automated CI/CD deployment pipeline using GitHub Actions and Vercel to streamline releases.**
- **Live Demo | GitHub Repository**
